*Plant and Soil* **140**: 325–327, 1992.

## Contents of Volume 140 1992

### Volume 140, No. 1

C. Gessa and S. Deiana, Ca-polygalacturonate as a model for a soil-root interface. II. Fibrillar structure and comparison with natural root mucilage 1
M. A. Latif, G. R. Mehuys, A. F. Mackenzie, I. Alli and M. A. Faris, Effects of legumes on soil physical quality in a maize crop 15
M. Megharaj, H. W. Pearson and K. Venkateswarlu, Effects of phenolic compounds on growth and metabolic activities of *Chlorella vulgaris* and *Scenedesmus bijugatus* isolated from soil 25
C. Y. Li, H. B. Massicote and L. V. H. Moore, Nitrogen-fixing *Bacillus* sp. associated with Douglas-fir tuberculate ectomycorrhizae 35
R. L. Conner, J. M. Carefoot, J. B. Bole and G. C. Kozub, The effect of nitrogen fertilizer and irrigation on black point incidence in soft white spring wheat 41
T. S. Gahoonia and N. E. Nielsen, Control of pH at the soil-root interface 49
M. Badraoui, P. R. Bloom and A. Delmaki, Mobilization of non-exchangeable K by ryegrass in five Moroccan soils with and without mica 55
J. A. Kirkegaard, H. B. So and R. J. Troedson, The effect of soil strength on the growth of pigeonpea radicles and seedlings 65
S. Pal, Nature and properties of soil humic acid as influenced by incorporation of different plant materials 75
D. J. Ross, T. W. Speir, J. C. Cowling and C. W. Feltham, Soil restoration under pasture after lignite mining: Management effects on soil biochemical properties and their relationships with herbage yields 85
R. E. Zdor and A. J. Anderson, Influence of root colonizing bacteria on the defense responses of bean 99
E. C. P. Wardenaar and J. Sevink, A comparative study of soil formation in primary stands of Scots pine (planted) and poplar (natural) on calcareous dune sands in the Netherlands 109
H. Vejsadová, D. Siblíková, H. Hršelová and V. Vančura, Effect of the VAM fungus *Glomus* sp. on the growth and yield of soybean inoculated with *Bradyrhizobium japonicum* 121
E. F. Redente, J. E. Friedlander and T. McLendon, Response of early and late semiarid seral species to nitrogen and phosphorus gradients 127
F. Baret, A. Olioso and J. L. Luciani, Root biomass fraction as a function of growth degree days in wheat 137

**Short communications**

G. M. Berntson, A computer program for characterizing root system branching patterns 145
B. J. Shelp and L. Liu, Nutrient uptake by field-grown broccoli and net nutrient mobilization during inflorescence development 151

**Volume 140, No. 2**

R. H. Jongbloed and G. W. F. H. Borst-Pauwels, Effects of aluminium and pH on growth and potassium uptake by three ectomycorrhizal fungi in liquid culture 157
R. H. Jongbloed, M. W. A. Tosserams and G. W. F. H. Borst-Pauwels, The effect of aluminium on phosphate uptake by three isolated ectomycorrhizal fungi 167
H. Fritze, O. Kiikkilä, J. Pasanen and J. Pietikäinen, Reaction of forest soil microflora to environmental stress along a moderate pollution gradient next to an oil refinery 175
T. Bessho and L. C. Bell, Soil solid and solution phase changes and mung bean response during amelioration of aluminium toxicity with organic matter 183
S. F. Zitzer and J. O. Dawson, Soil properties and actinorhizal vegetation influence nodulation of *Alnus glutinosa* and *Elaeagnus angustifolia* by *Frankia* 197
R. Lösch, C. R. Jensen and M. N. Andersen, Diurnal courses and factorial dependencies of leaf conductance and transpiration of differently potassium fertilized and watered field grown barley plants 205
C. R. Jensen, M. N. Andersen and R. Lösch, Leaf water relations characteristics of differently potassium fertilized and watered field grown barley plants 225
T. S. Gahoonia, N. Claassen and A. Jungk, Mobilization of phosphate in different soils by ryegrass supplied with ammonium or nitrate 241
C. S. Potter, Stemflow nutrient inputs to soil in a successional hardwood forest 249
F. D. Dakora, C. A. Atkins and J. S. Pate, Effect of $NO_3$ on $N_2$ fixation and nitrogenous solutes of xylem in two nodulated West African geocarpic legumes, Kerstings' bean (*Macrotyloma geocarpum* L.) and Bambara groundnut (*Vigna subterranea* L.) 255
M. Habte, T. Aziz and J. E. Yuen, Residual toxicity of soil-applied chlorothalonil on mycorrhizal symbiosis in *Leucaena leucocephala* 263
R. K. Misra and R. Sands, A comparison of sap flux and water relations of leaves of various isolated trees with special reference to foundation movement in clay soil 269
E. Hoffland, Quantitative evaluation of the role of organic acid exudation in the mobilization of rock phosphate by rape 279
F. Tardieu, L. Bruckler and F. Lafolie, Root clumping may affect the root water potential and the resistance to soil-root water transport 291
B. R. Khadge, L. L. Ilag and T. W. Mew, Effect of VAM inoculum carry-over on the successive cropping of maize and mungbean 303

**Short communications**

R. O. Nable and D. B. Moody, Effects of rainfall on the use of foliar analysis for diagnosing boron toxicity in field-grown wheat 311
D. A. Wardle, K. S. Nicholson and M. Ahmed, Comparison of osmotic and allelopathic effects of grass leaf extracts on grass seed germination and radicle elongation 315
